HEAT-RESISTANT Powder Coatings

Turn up the heat with HELIOCOAT<sup>®</sup>

**PROTECH**

The Protech Group's ultra high heat resistant HELIOCOAT® can take the heat. Ideal for BBQs, they are available for both interior and exterior applications, with long exposure to constant heat and offer outstanding color and gloss stability.

## heliocoat®

HEAT-RESISTANT Powder Coatings

- Heat resistant up to 1100°F (593°C)
  - Heat resistant up to 900°F (485°C)
- Available in outdoor formulations
  - Available in outdoor formulations
- Wide range of colors and textures
  - Wide range of colors and textures
- Excellent chemical, stain and scratch resistance
  - Excellent chemical, stain and scratch
- Formulations for continuous heat applications such as baseboard heaters
