

Innotek Polyarmor®

Thermoplastic Powder Coatings

~~Innotek~~ POLYARMOR® - G15, G17, G17T, G18 and G32 Series

POLYARMOR® is the Protech Group's multi-purpose line of thermoplastic powder coatings. These powders are formulated to provide maximum mechanical properties, superb impact resistance and excellent UV protection. When properly applied, POLYARMOR® powders furnish a functionalized thermoplastic protective coating that requires no primer and no cure time.

POLYARMOR® powders can be applied by either electrostatic spray or fluidized bed and are available in a wide range of colors and textures to meet a broad range of applications. They are the ideal coating solution for outdoor furniture, bike racks, playground installations, sports equipment, hand railings, fencing, oil and gas pipelines and many others.

ADVANTAGES

- *Superior impact resistance*
- *Excellent UV protection*
- *No primer or curing required provides major energy savings*
- *Available in a wide range of colors and textures*
- *Ideal coating solution for a wide range of applications*
- *Environmentally friendly*
