

# AW Series

## Water-Based Acrylic Liquid Coatings

Versatile Coatings. Reliable Results.

**PROTECH**  
GROUP

### Overview

Acrylic water-based coatings offer a low-odor, fast-drying solution for walls, metal, wood, and flooring, with good UV protection and durability. The AW Series can be used as a primer or topcoat, ideal for wood and curtain coating applications. These coatings provide smooth coverage, strong adhesion, and reliable performance with easy cleanup.

### Main Features

- Versatile Formulation – Tailored for various performance needs
- Quick Drying – Faster cure and water resistance than alkyds
- Low Emissions – Safer for indoor use and better air quality
- Primer Functionality – Prevents lifting and enables fast recoats
- UV Resistant – Maintains color and resists yellowing outdoors

### Common Uses Include

- Wood Finishes
- Curtain Coating Applications
- Package Coatings
- Marine Applications

### Typical Properties

<b>Coating Options</b>	Primer or Top Coat
<b>Cure Options</b>	Air dry, Force dry, and Bake
<b>Application</b>	Brush/Roll, Dip and Spray
<b>Substrates</b>	Steel, Wood, Aluminum, Galvanized Steel
<b>Gloss Range</b>	Low to Mid Gloss
<b>Solution-Specific Coatings</b>	AW1 Metal Coatings AW1 Primer Coatings AW1 Wood Coatings

### Consistent Quality. Proven by Performance.

At Protech Group, quality isn't just a feature—it's a promise. Our coatings are engineered to deliver consistent performance across every application, ensuring reliable results and a flawless finish each time. With rigorous quality control and decades of technical expertise, we maintain the highest standards from formulation to final product. Whether you're coating complex parts or high-volume assemblies, you can count on Protech for dependable performance and superior, long-lasting quality.

### Custom Formulations

Leveraging decades of experience, The Protech Group partners with you to create tailored coating formulations that meet your unique application, budget, and production needs.
