Our Products

5 Main Product Categories

Thermoset Powder

Industrial Liquid Coatings

Architectural Paints

Thermoplastic/PVC Powders

Specialty Materials - Polymer

Thermoset Coatings

Thermoset coatings is at the core of the Protech Group business, generating 65% of revenue and delivering to thousands of customers worldwide. Main Applications:

- **Lighting**
- **Furniture**
- **Architectural**
- **Automotive**
- **Racking and Store Fixtures**
- **Electrical Insulation Pipe Coating**

Thermoplastic/PVC

Our thermoplastics coatings are formulated to provide the maximum mechanical properties including corrosion, scratch, chip, and UV resistance. Main Applications:

- **Chain-link Fencing**
- **Dishwasher Racks**
- **Fencing**
- **Facemasks**
- **Glass Protection**

Industrial Liquids

Our liquid coatings include the latest waterborne and low-VOC coatings, as well as high solids and traditional solvent-borne coatings. Typical applications:

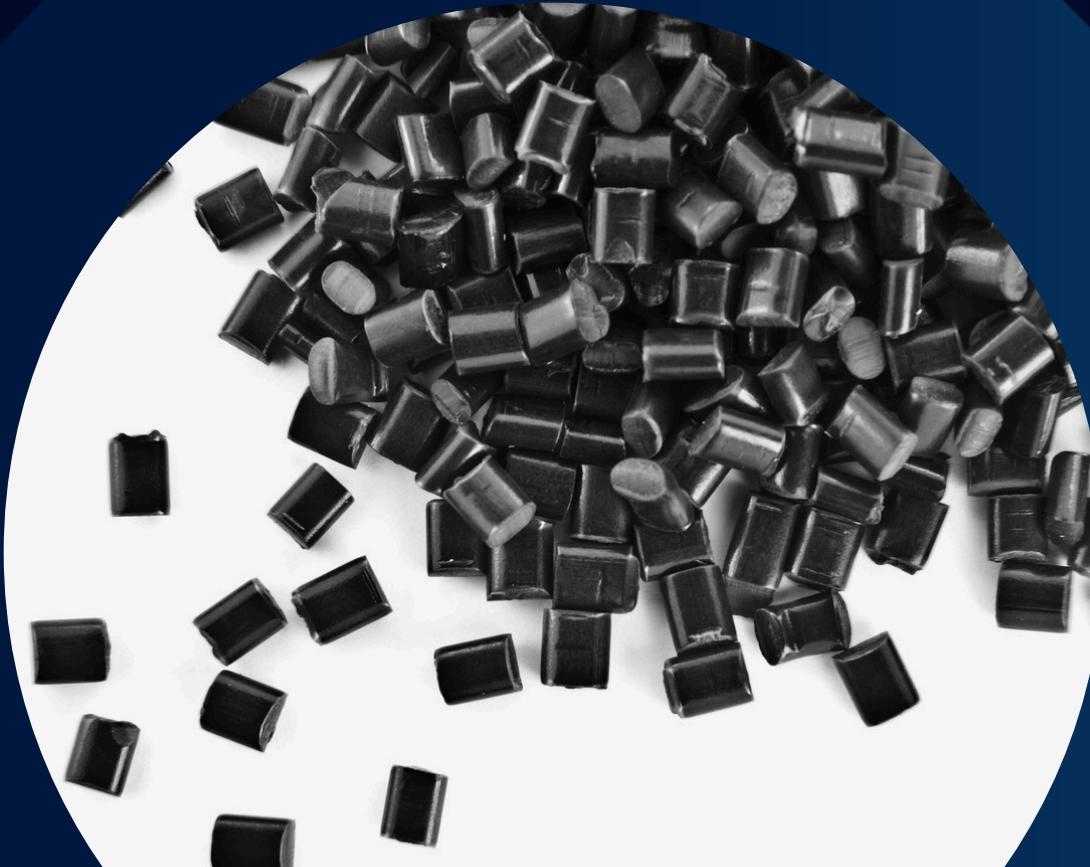

- **Doors & Windows**
- **Trailers and Trucks**
- **Funeral Caskets**
- **Decorative Glassware**
- **Racking**

Specialty Materials

Specialty materials includes several different customizable products such as PLASTISOL, SYNLEX (synthetic latex) and NATLEX (natural latex), as well as other plasticizer blends and compounds.

- **Wallpaper Binding**
- **Bandage Package Adhesive**
- **Boat Fenders**
- **Crash Test Dummy Skins**
- **Fragrance Pellets for Garbage Bags**
- **Air Fresheners & Sanitary Products**

OXYSAC (Flood Protection Barrier)

Made of super absorbent polymer that transforms into a gel and grows in volume as more liquid is absorbed.

- Lightweight for fast deployment.
- Safe, non-toxic, and odorless.
- Packaged in a moisture-proof vacuum bag
- Reusable once dried

Architectural & Anti-Rust Metal Paints

More than 50 years of formulating paints and stains adapted to the Canadian climate. We have distinguished ourselves by offering premium quality, environmentally friendly, and 100% Quebec-made products.

- **Interior**
- **Exterior**
- **Flooring**
- **Deck Stains**
- **Road Marking**

15 Manufacturing Sites

USA - CANADA - Europe

8

Thermoset Powder Coatings

- 3 in Canada (Quebec, Ontario, Alberta)
- 3 in USA (New Jersey, Ohio, South Carolina)
- 2 in Europe (Ghent, Belgium & Ostrava, Czech)

1

Thermoplastic/PVC Powder

- 1 in USA (York, Pennsylvania)

5

Liquid Paints & Coatings

- 3 in Canada (MF Laval, Montreal, Cornwall)
- 2 in USA (Liberty, IN, Fayetteville, TN)

1

Specialty Materials - Polymer

- 1 in USA (Tallmadge, Ohio)

Canada Production Sites

Our Milestones

Expansions & Acquisitions

1976

Protech Chemical was established in Montreal.

1994

Thermoset Powder Expansion in US. Acquisition of Guardsman in Trenton, NJ

2000

Industrial Liquid Coatings Prolux was acquired in Canada.

2001

Thermoset Powder Expansion in Canada. Acquisition of Denalt Powder Coatings

2004

Thermoset Powder Expansion in Europe Oxyplast Belgium

2006

Thermoset Powder Expansion in Europe Ecopowder (POCZ)

2012

Thermoplastic Powders Innotek & Termoclad were acquired in US

2013

Thermoset Powder Expansion in US & EU - Acquisition of Seibert Powder Coatings

2017

Specialty Materials Acquisition of Chemionics in US

2017

Thermoset Powder Expansion in US. Acquisition of Tromite Powders Inc.

2020

Industrial Liquid Coatings Winslow Browning was acquired in US

2021

Thermoset Powder Expansion. Acquisition of Lynx Thermoset Coating

2022

Industrial Liquid Coatings Acquisition of Evotech in Canada

2023

Architectural Paints Acquisition of MF Paints in Canada & Head Office Expansion in Montreal

2024

Acquisition of PROMAL in Poland & Acquisition of Caldwell Liquid Coatings, Tennessee , US
